

SUITED FOR SUCCESS AT SOUTHWEST FLORIDA COLLEGE

Fort Myers, Fla. (July 29, 2009) – A class project is helping members in the community back on their feet again.

The Professional Clothing and Accessory Drive going on now at Southwest Florida College began as a Southwest Florida College marketing and management class project.

A team of students, who call themselves the “A2Z Solutions” team joined forces with the Southwest Florida College’s Career Services Department and together, the group hopes to be able to make a difference in the lives of those who are in need of a job.

“We determined early on that this was something that was needed on campus for students that did not have means of obtaining professional clothing for interviews,” said Margaret Pace, Director of Career Services at Southwest Florida College.

Appropriate attire and accessories for employment interviews consist of: men’s and women’s suits, neutral blouses, collared shirts, ties, scarves, belts, gently used purses, and work appropriate accessories.

Clothing is now being accepted at the Southwest Florida College Fort Myers campus on 1685 Medical Lane in the Career Services Department. Appropriate items should be in clean and useable condition and on hangers if possible or neatly folded. The Professional Clothing and Accessory Drive is being held through August 17.

For more information, please call 239-939-4766 and ask to speak with Mrs. Hoeth in the Business Department.

Southwest Florida College is an accredited, private, nonprofit institution of higher learning centrally located in Fort Myers, Tampa, Port Charlotte, and includes the Institute of Interior Design located within the International Design Center in Estero. The College has been providing post secondary education to Floridians since 1974 and offers programs in Allied Health, Business, Design, Education, Information Technology and Legal Studies. Its mission is to provide educational opportunities for individuals to acquire knowledge and skills that will help prepare them for rewarding careers in fields with high growth potential.
